- *Service delivery*

Transport and the MDGs

- Facilitating Economic Growth: Affordable Transport for All
- Livable Cities: Alleviate Congestion, less pollution
- Rural Opportunities: Access for All
- Local Human Services: for a Healthy Development
- Safer and Cleaner Transport: Protect the People, Protect the Planet
- Optimizing Transport Impact on Poverty

What are we doing now?

Facilitating knowledge exchange and promoting good practice

gTKP - governance, rural, road safety, environment, health

SEACAP - with DFID Vietnam, Asian Development Bank and
World Bank

AFCAP with SSATP (WB) and other institutional stakeholders

Ethiopia with DFID Ethiopia

TRS - with World Bank

What are our plans?

- gTKP expansion and independence (Donors and themes)
- SEACAP maximisation of opportunity for mainstreaming of the evidence based work. controlled expansion with other donors. Examining the case for Phase II , Nepal demand. Closer cooperation with ADB
- AFCAP organic growth taking advantage of SSATP networks and opportunities.
- Ethiopia - incorporation into AFCAP
- TRS - opportunities for convergence with our DFID work and priorities - feedback , innovation, adding value to WB loans.

Future

- Responding to the White Paper 3 priorities to influence economic growth through good governance and sustainable policies and infrastructure.
- Supporting WB, ADBs and funding organisations with innovative and effective policy and optimum technology
- Climate change and fuel type and use, environmentally sound transport
- Public private partnerships
- Public utility reform (highways 2/3 of WB transport lending)
- Trade and cost of transport
- Social aspects of transport
- Urbanisation

Urbanisation

- Improve spatial management and urban transport options
- Structure urban development with adequate transport policies and systems
- Manage efficiently the urban/rural/regional interfaces

Thank you
