

conference & exhibition  
**INFRASTRUCTURE**  
ASIA 2010

**Infrastructure Asia Exhibition and Conference, 14 - 17 April 2010, JIEXPO, Jakarta, Indonesia**

Annual \$US 600 Billion for Infrastructure Investment is made available!  
Maximize Your Market Share To Benefit From Asia Pacific Economic Infrastructure Growth!

Infrastructure Asia 2010 is Asia's premier infrastructure forum. As the exclusive G2G, B2B & B2G exhibition, held in conjunction with the upcoming "Asia Pacific Ministerial Conference on PPP for Infrastructure Development", IA 2010 offers an unparalleled platform for governments, businesses and leading experts to meet, discuss and find solutions for the prioritization, procurement and presentation of existing and future infrastructure projects in Asia Pacific.

Infrastructure Asia 2010 creates unrivalled opportunities for global companies to showcase their capabilities, products and services in support of the infrastructure sector. The exhibition is the only event in Asia Pacific to bring together 53 governments and infrastructure project owners of UNESCAP member countries, key players within 4 infrastructure sectors, over 7000 selected buyers and infrastructure funds under one roof.

Infrastructure Asia 2010 will focus on 4 life -critical infrastructure industries:

- Energy Infrastructure – Oil & Gas Processing, Power Generation & Renewable
- Transport Infrastructure – Roads, Railways, Airports and Seaports
- ICT Infrastructure
- Water and Waste Management Infrastructure

The event is coordinated by the State Ministry of National Development of the Republic of Indonesia and is supported by UN Economic and Social Commission for Asia-Pacific (UNESCAP) and The World Bank.

Official Media Partners to the event: Bloomberg and The Wall Street Journal Asia.

We would like to invite your Association to be our cooperation partner of this event. In this respect we hope that your members will be able to gain maximum information for the event and benefit from participating in the conference and the exhibition.

With the entire UNESCAP community being fully hosted in Jakarta next April around an agenda that will set inter-regional policy and best practices for project development & procurement, I would welcome discussing the opportunity above with you at your earliest convenience.

Look forward to receiving your prompt reply.
