# Synopsis

- Introduction
- Border Management Challenges
- Integrated Border Management
- State of Infrastructure and Facilities
- Methodology
- Development of CBVPN-ICS
- System Implementation Strategy
- Conclusion and Recommendations

## Introduction

Transportation system (fixed infrastructure, the flow entities and the control systems) helps to overcome the friction of geographical space.

Borders will often say much about countries' relationships.

- India and Pakistan Border
- Afghanistan and Pakistan

US and Mexico sporting at fenced border
