

Knowledge gaps in socioeconomic areas of the transport

Knowledge gaps

- Financing mechanisms
- Allocation fund for rural road maintenance
- Alternative modes of rural transportation
- Rural road classification
- Accommodating with people with disabilities

Financing mechanisms

- Different ways of financial
 - Central
 - Local government and
 - community contribution
- Problem what is the ideal modality?

Allocation fund for rural road maintenance

- Mostly gap in the most of the country
- Few countries have funds

- How to create and manage road fund for rural transport?

Alternative modes of rural transportation

- Opportunities to use other modes (water transport, trial bridge etc)
- Appropriate management

Rural road classification

- Majority are based on according to administrative requirement
- But it should be functional classification that includes the socioeconomic needs of the community

Accommodating with people with disabilities

- Need for international/ national policies
- mechanisms to implement supported by technical instruments
