

Sponsorship Opportunities

Become a Symposium sponsor and capture the attention of more than 150 road transport specialists, from Romania and abroad.

Get exposure and PR your organisation to the international road transport community.

The IRF Symposium 'Providing Infrastructure that Improves Road Safety' is a unique event devoted to the road infrastructure professionals from Romania and worldwide. Participants will be ready and eager to learn about your organisation!

The Symposium participants will be high level professionals and Romanian governmental officials, i.e. mostly decision-makers running their own budgets. Demonstrate your business to this large group of people genuinely interested in your products and services, as they have come to learn.

- **Cultivate** name recognition among road transport specialists from all over the world

Get your company name associated with the powerful and ever expanding road transport industry.

- **Make** your products known to decision-makers

Be part of the lucky few who will be the official sponsors of the Symposium to associate their names with conducting business in new markets.

- **Contribute** to the improvement of road safety worldwide

Jointly organised by Search Corporation (Romania) and the International Road Federation (IRF), the Symposium enables decision-makers and practitioners to attend an international forum dedicated to transport issues without having to travel far from home. Being a sponsor means you enable professionals with tight budgets to attend.

**IRF Symposium
'Providing Infrastructure
that Improves Road Safety'**

10-11 May 2011, Bucharest, Romania

The Symposium will be held in **English**.

Participants

The targeted number of Symposium delegates is 150. The Symposium is open to road sector practitioners and stakeholders from both the public sector and the private sector. It is to be expected that the larger share of participants will come from the Eastern European and CIS region such as:

- Government and municipal agencies
- International financial institutions
- Road construction companies
- Infrastructure operators
- Road engineers
- Banks and insurance companies
- Consulting engineers and management consultants
- Educational and training institutions

About the organisers

The **International Road Federation** brings together more than 400 members active in the road infrastructure from both the public and private sector in over 87 countries. The IRF firmly believes that efficient, well-maintained road networks contribute significantly not only to economic growth and prosperity, but also to social development. IRF promotes road that are safe, economically viable and environmentally friendly.

The Symposium is hosted by **Search Corporation**. Search Corporation is one of the most important companies in Romania specializing in planning road transportation networks, offering design, engineering and management. In its 16 years, Search Corporation has developed from a small group of experts into a strong professional organization with over 400 employees. The development concept of the company was based on the creation of a core team of specialists using modern western management methods and proper technical support.
