

Tanzania Private Sector Road Safety Coalition

FOUNDING MEMBERS

Tanzania Road Safety Coalition Charter

Third Party Transport Contractor Vetting

WE are committed to working only with competent partners with suitable credentials by setting, and continuously reviewing, minimum vetting standards related to legal compliance, financial due diligence, vehicle technical standards and Health and Safety.

Occupational Health and Safety

WE are committed to drug and alcohol policy and enforcement, annual medical check-ups, "on the road" driver monitoring and wellness support.

Capacity Building and Professional Development

WE are committed to developing professionalism and adoption of road safety best practices in transportation by developing competencies amongst fleet owners, managers and drivers through structured training modules, reward and recognition schemes. We shall also ensure that relevant recommendations related to road safety are shared with public agencies which are leading the recruiting, developing and building of a professional road safety workforce within their organisations.

Journey Management

WE are committed to ensuring that our transport itineraries are proactively planned and closely monitored to minimise fatigue, driving under influence, speeding, night and dangerous driving in a bid to reduce road crashes and fatalities.

Vehicle Technical Standards

WE are committed to ensure that all our members define and apply minimum vehicle standards relevant to their transport needs and in line with international best practices. More generally, all members' and third party commercial vehicles shall be equipped with a vehicle tracking device, means of communication (phone or radio), and an Emergency Response kit (first aid kit, fire extinguisher, reflective jacket, warning triangles and wheel chokes).

Accident Reporting and Investigation

WE are committed to ensure that all members and their third party transporters be required to report accidents and share results of investigations for future accident prevention. Relevant expertise and experience related to accident reporting and investigation will be shared among the coalition members.

Legal Compliance and Cooperation with Law Enforcement Agencies

WE are committed to ensuring that relationship amongst members of this coalition, public bodies, private organisations and Government bodies are legal, independent and transparent. We pledge to cooperate fully with agencies charged with the responsibility of traffic law enforcement and to proactively engage with them in order to assure appropriate changes that are responsive to industry needs and in line with global best practices.

Emergency Response

WE are committed to working together to define and apply suitable rescue, site clean-up and restoration procedures whenever accidents occur, ensuring the safety of third party road users at all times. We shall ensure "on the road" support to our drivers via roadside wellness and emergency response centres.

Road Safety Community Actions

WE are committed to engaging with communities to implement actions addressing various aspects of road safety.

We, the undersigned, commit to the aforementioned standards and accountability principles
